ABOUT

I am a web developer in Toronto and a technology enthusiast with over 10 years of professional IT technical support and customer service experience in a telecommunication environment. I am a keen student of web development, receptive to opportunities that will help expand and master my craft. I look forward to solving complex issues and working in a team of talented coders.

WORK EXPERIENCE

TECHXPERT TECHNICAL SUPPORT

Rogers Communication | Jun 2011 - Jul 2016

- Resolve complex technical issues such as PC optimization, virus eradication, data recovery, network connectivity etc.
- Provide support on wide range of Operating Systems such as iOS, Android, Blackberry, Windows and Mac
- Setup and configure home networking devices, such as home routers, wireless printers, security cameras etc.
- Problem solve with emphasis on fixing root cause.

WIRELESS LIVE CHAT TECHNICAL SUPPORT

Rogers Communication | Sep 2009 - Jun 2011

- Utilize vendor's software and tools to identify and support issues such as software incompatibility, data synchronization, backup and OS re-install.
- Diagnose and troubleshoot mobile network connectivity.
- Configure and troubleshoot mobile OS settings, email and device features.
